

***Trading days:* don't throw it away, give it away!**

We've all heard the expression "one man's trash is another man's treasure." We'll test the veracity of this expression during the 1st edition of *Trading Days* **the 9th and 10th of October...**

To promote the reuse and recycling of household items, the City of Deux-Montagnes' Environmental Commission encourages citizens, starting at 9 am, to place their unwanted, but still functional items on the side of the road for neighbours and other residents who may be interested.

A garage sale with no permit and no price tag!

All uncollected items must be removed before the end of the day. If you wish, you may take advantage of the collection of large waste items by depositing them at the edge of your yard, Thursday October 21 after 8 pm.

Prepare your home now!

*** DO NOT FORGET TO KEEP OUT OF VIEW OBJECTS YOU DON'T WISH TO GIVE AWAY.**
